Reliability Indicator:

Not established

Overall Length:

8.000 inches

Expanded Inside Diameter:

Any acceptable

Recovered Inside Diameter:

Between 4.783 inches and 4.823 inches

Recovered Wall Thickness:

0.250 inches

End Application:

Surface minesweeping systems

Design Form:

Full round

Product Name:

Sleeve, insulating

Special Features:

End type designation: s; recommended hose clamps: 5781286-5

Flexibility:

Semiflexible

Color:

Any acceptable

Material:

Rubber

Material:

Rubber

Style Designator:

Shrinkable

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A22500
