**Wall Thickness:**

0.065 inches

**Reliability Indicator:**

Not established

**Inside Diameter:**

Between 0.625 inches and 0.655 inches

**Coating Material:**

Rubber or resin, synthetic

**Environmental Protection:**

High humidity resistant

**Design Form:**

Full round

**Flexibility:**

Flexible

**Color:**

White

**Material:**

Silicone rubber

**Material:**

Rubber silicone class q

**Style Designator:**

Nonshrinkable

**Departure From Cited Document:**

Material will be in accordance with ships parts control center activity hx quality control, manufacturing and testing specifications

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fiig:**

A22500
