Wall Thickness:

0.008 inches

Reliability Indicator:

Not established

Inside Diameter:

0.085 inches

Tempurature Rating:

260.0 degrees celsius

Design Form:

Full round

Markings:

Package shall be permanently and legibly marked with not less than ams 3654c, size, color, quantity, purchase-order number, manufacturer's identification, and date of manufacture

Color:

Any acceptable

Material:

Plastic, polytetrafluoroethylene, ams 3654

Material:

Plastic polytetrafluoroethylene

Style Designator:

Nonshrinkable

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A22500
