End Application:

Insulation sleeving, electrical

Product Name:

Ben-har 1151-frb, silicone rubber coated fiberglass sleeving

Special Features:

Rugged, flame-retardant, silicone rubber coated sleeving, excellent cut-through abrasion protection; temperature range: -70 to 200 degrees celcius; difficult to ignite; very slow rate of burn travel, self extinguishes promptly; thermal barrier for limited periods

Supplementary Features:

Resistant to hydraulic fluids, jet fuels, inorganic acids and alkalis

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A22500
