Wall Thickness:

0.062 inches

Inside Diameter:

0.375 inches

Overall Length:

6.000 inches

Special Features:

Material: fluoropolymer-polytetrafluoroethylene (ptfe), length: cut-to-length , sold in 1 inch increments, 6 inch maximum continuous length, outside diameter 1/2 inch , operating temp range -350 to +500 degrees fahrenheit , performance : electrical insulator , weather resistant , very low friction

Color:

White

Style Designator:

Nonshrinkable

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A22500
