Tempurature Rating:

260.0 degrees celsius

Product Name:

Protective pressure sensitive adhesive tape (ps-1)

Special Features:

Ingredients/components: toluene, cas number 108-88-3, amount: less than 75ppm expected; barium sulfate, cas number 7727-43-7, amount: approximately 1000 ppm; polyethylene terephthalate, cas number 25038-59-9, amount: 20-25 percent; silicone based adhesive, cas number: n/a, amount: 75-80 percent.

Color:

Red

Material:

Silicone and plastic polyethylene terephthalate

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A14300
