Environmental Protection:

Moisture resistant

End Application:

Lynx helicopter

Width:

1.0 inches

Length:

15.0 yards

Temperature Rating:

Between -60.0 degrees fahrenheit and 400.0 degrees fahrenheit

Min. Tensile Strength (psi):

700 pounds per square inch

Nominal thickness:

0.030 inches

Product Name:

Self-fusing tape

Special Features:

The shelf life is 12 months from the date of manufacture at 75 degrees f. The dielectric strength is 400 volts . The tape bonds to itself at room temperature within 24 hours and is resistant to oxygen, ozone, and corona.

Color:

Red

Material:

Silicone

Special Test Features:

Milspec tested

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A14300
