Overall Length:

2.1 inches

Maximum Conductor Size Accommodated:

For wire size 8awg mcm

Electrical Insulation Feature:

Heat shrinkable sleeve

Identification Code Color:

Red

End Application:

2355-01-531-6425 - electric spare tire winch

Basic Shape Style:

Heat shrinkable

Product Name:

Butt splice, heat-shrink Insulated seal, 8 awg

Conductor Accommodation Type Style:

Recessed barrel all ends

Special Features:

Splices have adhesive-lined nylon insulation; shrink temperature is +194f; insulation shrinks to form a seal against moisture and corrosion; rated to 600 volts and +221f; splices are made of tin-plated copper

Material:

Copper

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A22500
