Wall Thickness:

Between 0.007 inches and 0.009 inches

Inside Diameter:

0.125 inches

Overall Length:

2000.0 feet

Tempurature Rating:

180.0 degrees celsius

Environmental Protection:

Flame resistant and abrasion resistant

Closure Method:

Zipper

End Application:

B-2 bomber

Design Form:

Split round

Min. Tensile Strength (psi):

55 kilopascals

Flexibility:

Flexible

Color:

Tan

Material:

Resin, synthetic

Material:

Resin synthetic

Style Designator:

Nonshrinkable

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A22500
