**Overall Length:**

12.000 inches

**Overall Height:**

0.015 inches

**Overall Width:**

12.000 inches

**Product Name:**

Thermal pad

**Special Features:**

Is white in color, hardness rating is (shore a)90. Continuous use temperature is minus 76.0 to 392.0 degrees celcius. Dielectric breakdown voltage is 4000.0 vac. Flame rating is v-o. Thermal conductivity is 3.0 w/m-k. Is without adhesive backing.

**Material And Location:**

silicone rubber

**Style Designator:**

Flat, rectangular

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fiig:**

A007a0
