Overall Length:

12.000 inches

Overall Height:

0.015 inches

Overall Width:

12.000 inches

Product Name:

Thermal pad

Special Features:

Is white in color, hardness rating is (shore a)90. Continuous use temperature is minus 76.0 to 392.0 degrees celcius. Dielectric breakdown voltage is 4000.0 vac. Flame rating is v-o. Thermal conductivity is 3.0 w/m-k. Is without adhesive backing.

Material And Location:

silicone rubber

Style Designator:

Flat, rectangular

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A007a0
