Wall Thickness:

0.025 inches

Inside Diameter:

0.750 inches

Tempurature Rating:

56.0 degrees celsius

Expanded Inside Diameter:

0.786 inches

Product Name:

Silicone resin coated fiberglass sleeving

Special Features:

Two differnt grades of sleeving are offered identified by average dielectric breakdown voltage: nema grade a-8, 000 volts min. Average, 6000 volts min. Individual, nema grade c-12, 500 volt min. Average. 1, 500 volts min. Individual, size 3/4

Color:

Brown

Style Designator:

Nonshrinkable

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A22500
