Special Features:

Bushing drilled through 6 places equally spaced, holes radiused both ends

Material:

Aluminum alloy 2024 body

Material Specification:

Qq-a-268 mfr ref single material response body

Surface Treatment:

Anodize body

Surface Treatment Specification:

Mil-a-8625 type i federal specification single treatment response body

Supplementary Features:

Od max.0.624 by 0.313 max.Thickness

Fsc Application Data:

Motor distrution box assembly

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A02000

Mil-std (military Standard):

Mil-a-8625 spec.
