Deflection Angle:

90.0 degrees

Conduit Type Accommodated:

Rigid metallic thinwall second end

End Type:

External thread first end

Leg End To Plane Of Bend Distance:

1.156 inches first end

Item Accommodated Trade Size:

0.500 inches second end

Material:

Aluminum alloy

Surface Treatment:

Cadmium

Surface Treatment Specification:

Qq-p-416, type 2, class 3 federal specification single treatment response

Style Designator:

Pulling

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A01800
