Electrical Conduit Elbow - Page 1 of 1

View Online at https://aerobasegroup.com/nsn/5975-00-234-2402

Deflection Angle: 90.0 degrees Conduit Type Accommodated: Rigid metallic thinwall second end End Type: External thread first end Leg End To Plane Of Bend Distance:

1.156 inches first end

Item Accommodated Trade Size:

0.500 inches second end

Material:

Aluminum alloy

Surface Treatment:

Cadmium

Surface Treatment Specification:

Qq-p-416, type 2, class 3 federal specification single treatment response

Style Designator:

Pulling

Shelf Life:

N/a

Unit Of Measure:

Demilitarization:

No

Fiig:

A01800
