Material Thickness:

0.025 inches

Mounting Device Quantity:

1

Body Outside Diameter:

21.500 inches

Mounting Method:

Bracket

Accommodation Hole Inside Diameter:

0.273 inches

Special Features:

Circular ignition manifold type

Flexibility:

Rigid

Material:

Copper alloy body

Surface Treatment:

Cadmium body

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A02000
