Gripping Accommodation Type:

Round ribbed both ends

Minimum Inside Bending Radius:

0.625 inches

Body Outside Diameter:

0.520 inches

Body Inside Diameter:

0.364 inches

Terminal End Type:

Shouldered ferrule w/coupling nut both ends

Measuring Method And Length:

22.000 inches

Material:

Plastic polytetrafluoroethylene

Material Specification:

L-p-403 federal specification single material response

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A02700
