Inside Diameter:

Between 2.298 inches and 2.322 inches

Outside Diameter:

2.343 inches

Length:

71.734 inches

Structural Design:

Thickwall

Special Features:

Counter bore both ends 1.00 in.Deep porm 0.031

Material:

Aluminum alloy 6061

Material Specification:

Ww-t-700, temper t6 federal specification single material response

Surface Treatment Specification:

Mil-c-5541 military specification single treatment response

Style Designator:

Plain conduit

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A02700

Mil-std (military Standard):

Mil-c-5541 spec.
