Mounting Provision:

Hinge w/spring loaded latch and strap

Overall Depth:

27.350 inches

Overall Height:

71.350 inches

Overall Width:

24.000 inches

Panel Space Height:

10.193 inches

Panel Rail Thickness:

1.000 inches

Door Type:

Single front

Functional Description:

The remote subsystem rack (rss) contains the physical, electrical and cooling provisions for installation of line replaceable units; with the interconnect monitor unit, the rack provides for interconnections between Irus, power control, and distribution to the Irus and all external data, control and power interfaces; the rss rack is not an end item; it is used with the an/gsc43 and an/gsc44 terminals of the air force communication system

Material:

Aluminum alloy

Style Designator:

Open frame vertical front

Supplementary Features:

Ginput power is 115vac, 50/60 hz, w/5 amps maximum current; rss rack is provided w/overload protection and connecting cables for all projected Irus; mtbf 360 hrs; mtbd 59 equip. Months; mtbm actions 360 hrs

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fiig:

A05500
