Panel Mounting Rail Design Style:

Channel

Handling Facility Type:

Fixed external handles

End Application:

6610-01-308-1859, computer, air data, f-16

Features Provided:

Bracket and receptacle connector and terminal board

Special Features:

Includes capacitors, indicator and meter

Reference Data And Literature:

5f5-4-28-4

Style Designator:

Enclosed vertical front

Fsc Application Data:

F-16 aircraft, central air data computer

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A05500
