Attachment To Item Supported Method:

Central aperture 0.250 in. Diameter flattened on two sides to 0.188 in. W

Supporting Object/surface Attachment Method:

Four slotted holes 0.094 in. Diameter each 22.5 degrees from center line parallel to flat sides

Special Features:

Central aperture 0.250 in. Diameter flattened on two sides to 0.188 in. W. Four slotted holes 0.094 in. Diameter each 22.5 degrees from center line parallel to flatsides.

Material:

Stainless steel

Surface Treatment:

Passivate

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

T08100
