Features Provided:

Connector

Maximum Weight Capacity:

18.0 kilograms

Special Features:

Zoperating power 28vdc; has drive system: worm gear; temperature m17 to p55 degrees c; is protected for heavy rains, blowing snow, 60mph wind blown sand; measures 40 cm. L, 25 cm. W, 40 cm. H; rotation limits: 355 degrees azimuth, 90 degrees elevation

Reference Data And Literature:

T.O. 31s4-2fxq4-131

Supplementary Features:

Used as pan and tilt unit for video camera

Reference Number Differentiating Characteristics:

Pan and tilt unit-an/fxq-4

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A05500
