**Special Features:**

Nomenclature: cabinet, main; c/o frame subassembly, panel, terminal board, block, rack assembly, left and right slide, switch, adapter plate indicator housing, semiconductor device, relay, connector, resistor, pump, regulator, extender card, signal amplifier, comparator, engagement sensor, inhibitor, meter, support channel, distribution panel and contacts; designed for agm-86b alcm

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fig:**

A05500
