Inside Diameter:

Between 0.064 inches and 0.074 inches

Outside Diameter:

Between 0.088 inches and 0.104 inches

Length:

Between 7.375 inches and 7.825 inches

Special Features:

To expand forward end of conduit a heated swaging tool may be used; forward end to be expanded to 0.125 in. Internal dia; the expanded section will be 0.188 in. Long; conduit used for proj 105mm heat-t m456a1 and m456a1e2

Material:

Plastic polyamide body

Style Designator:

Plain conduit

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A02700
