Body Outside Diameter:

1.000 inches

Body Inside Diameter:

0.930 inches

Structural Design:

Thinwall

Terminal End Type:

Straight fitting w/flange 1st end

Measuring Method And Length:

16.424 inches

Terminal End Deflection Angle:

16.6 degrees 2nd end

Material:

Aluminum alloy 6061 complete end fitting

Fsc Application Data:

Aircraft fuselage section

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A02700
