Overall Height:

4.000 inches

Material Thickness:

Between 0.037 inches and 0.047 inches

Body Outside Diameter:

1.344 inches

Body Height:

3.375 inches

Opening Inside Diameter:

0.625 inches

Special Features:

Compressed id 0.812 in.; end plug 0.688 in. Od, 0.375 min 0.390 in. Maximum id, 0.625 in. L; used on 7-43057 throttle control

Material:

Rubber body

Material Specification:

B6657-1 mfr ref single material response body

Style Designator:

Thru-hole, expandable

Fsc Application Data:

A-10a aircraft engine

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A02000
