Gripping Accommodation Type:

Round knurled 2nd end

Trade Size:

0.500

Body Inside Diameter:

0.500 inches

Terminal End Type:

Shouldered ferrule w/coupling nut 2nd end

Measuring Method And Length:

18.000 inches working

Special Features:

Identification marker to be centered on assembly, p/n 350049-0046

Flexibility:

Flexible

Material:

Plastic body

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A02700
