End Application:

4920-01-089-6203, 4920-01-158-5483, 4920-01-176-5215 eprom programmer/verifier

Features Provided:

Connector and terminal strip

Component Mounting Facility Type And Quantity:

2 flange

Design Feature:

Punched holes

Functional Description:

Chassis assembly to digital interface unit, erasable program readout memory /eprom/ programmer/verifier

Style Designator:

Open end

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A05500
