Mounting Provision:

Unthreaded hole

End Application:

Jtdis class i, an/urq-33, 5821011730698

Mounting Facility Quantity:

4

Design Feature:

Punched holes

Mounting Facility Size:

Two holes 0.187 in. Diameter thru; two holes 0.250 in. Diameter thru

Material:

Aluminum alloy 6061

Material Specification:

Qq-a-250/11 federal specification single material response

Surface Treatment:

Nickel

Fsc Application Data:

Radio and television communication equipment, airborne

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A05500
