**Mounting Provision:**

Unthreaded hole

**End Application:**

Jtdis class i, an/urq-33, 5821011730698

**Mounting Facility Quantity:**

4

**Design Feature:**

Punched holes

**Mounting Facility Size:**

Two holes 0.187 in. Diameter thru; two holes 0.250 in. Diameter thru

**Material:**

Aluminum alloy 6061

**Material Specification:**

Qq-a-250/11 federal specification single material response

**Surface Treatment:**

Nickel

**Fsc Application Data:**

Radio and television communication equipment, airborne

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

Yes - demil/mli

**Fig:**

A05500
