Overall Length:

19.460 inches

Overall Width:

2.000 inches

Material Thickness:

0.500 inches

End Application:

Mx peacekeeper missile support equipment

Special Features:

0.281 in. Diameter hole, 6 places; 0.500 in. Diameter hole, 12 places

Material:

Aluminum alloy 6061 body

Material Specification:

Qq-a-200/8, 6061-t651 federal specification single material response body

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A02000
