Overall Length:
21.940 inches
Overall Width:
1.500 inches
Material Thickness:
0.500 inches
End Application:
Low altitude navigation and targeting infrared system
Special Features:
0.234 in. Diameter holes, 3 places; 0.500 in. Notches, 3 places; 0.190-32 unc-2b through 6 holes
Material:
Aluminum alloy 6061 body
Material Specification:
Qq-a-200/8, 6061-t651 federal specification single material response body
Shelf Life:
N/a
Unit Of Measure:

Demilitarization:
No
Fiig:
A02000
