Overall Length:

21.940 inches

Overall Width:

1.500 inches

Material Thickness:

0.500 inches

End Application:

Low altitude navigation and targeting infrared system

Special Features:

0.234 in. Diameter holes, 3 places; 0.500 in. Notches, 3 places; 0.190-32 unc-2b through 6 holes

Material:

Aluminum alloy 6061 body

Material Specification:

Qq-a-200/8, 6061-t651 federal specification single material response body

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A02000
