Overall Length:

19.000 inches

Overall Width:

1.719 inches

Overall Thickness:

0.125 inches

End Application:

Low altitude navigation and targeting infrared system

Mounting Configuration:

Two 0.539 in. Mounting holes centered one on each end

Panel Material:

Aluminum alloy, qq-a-250/11, alloy 6061, t6

Special Features:

125 microinch

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T122-b
