Braided Metallic Shield Type:

Cres wire

Minimum Inside Bending Radius:

1.500 inches

Body Inside Diameter:

1.000 inches

Terminal End Type:

Shouldered ferrule both ends

Measuring Method And Length:

96.000 inches working

Flexibility:

Flexible

Material:

Steel collar

Surface Treatment:

Cadmium coupling nut and nickel coupling nut

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A02700
