Braided Metallic Shield Type:
Cres wire
Minimum Inside Bending Radius:
1.500 inches
Body Inside Diameter:
1.000 inches
Terminal End Type:
Shouldered ferrule both ends
Measuring Method And Length:
96.000 inches working
Flexibility:
Flexible
Material:
Steel collar
Surface Treatment:

Cadmium coupling nut and nickel coupling nut

Shelf Life:

N/a

Unit Of Measure:

Demilitarization:

No

Fiig:

A02700
