Width:

0.500 inches

Thickness:

0.055 inches

Length:

1.125 inches

Specific Usage Design:

Electrical components identification

Hole Quantity:

1

Insignia:

Included

Min. Tensile Strength (psi):

50 pounds per square inch

Criticality Code Justification:

Feat

Special Features:

Marked line one p1; line two a1j1 line thre (a1j1)

Color:

Black

Material:

Nylon

Material:

Plastic polyamide

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T372-b
