Width:

1.070 inches

Thickness:

0.055 inches

Length:

6.300 inches

Specific Usage Design:

Electrical components identification

End Type:

Plainw/attachment

Pad Length:

0.870 inches

Pad Width:

1.070 inches

Hole Quantity:

2

Insignia:

Included

Min. Tensile Strength (psi):

500000 pounds per square inch

Criticality Code Justification:

Feat

Special Features:

Marked line 1 1a14p1; line (1a12j8c)

Color:

Black

Material:

Nylon

Material:

Plastic polyamide

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T372-b
