Deflection Angle:

90.0 degrees

Conduit Type Accommodated:

Flexible metallic first end

End Type:

Shouldered ferrule w/round nut second end

Leg End To Plane Of Bend Distance:

2.120 inches first end

Item Accommodated Trade Size:

1.250 inches first end

Special Features:

2.500 in. Telescoping lg

Material:

Steel comp mt1015

Material Specification:

Fed.Std.66 federal standard single material response

Surface Treatment:

Nickel

Style Designator:

Standard

Thread Series Designator:

Unef first end

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A01800
