Overall Length:

21.430 inches

Overall Height:

5.480 inches

Overall Width:

5.030 inches

End Application:

C-130, c-141, c-5b aircrafts

Usage Design:

For mounting model 209f, flight data recorders

Attachment To Item Supported Method:

2 pins on 4.125 in. Centers, and 2 locking nuts/bolts on 4.160 in. Centers

Supporting Object/surface Attachment Method:

Four 0.301 through holes located on each of the 4 shock mounts

Shock/spring Mounting Method:

4shock mounts, 1 on each corner on 4.125 x 16in. Centers

Material:

Aluminum alloy, qq-a-250/11, alloy 6061, t6

Material:

Aluminum alloy 6061

Material Specification:

Qq-a-250/11, alloy 6061, t6 federal specification 1st material response

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No
