Minimum Inside Bending Radius:

0.000 inches

Body Outside Diameter:

0.535 inches

Body Inside Diameter:

0.250 inches

End Application:

B-2 bomber (atb)

Terminal End Type:

Plain ferrule w/coupling nut 1st end

Measuring Method And Length:

26.750 inches working

Product Name:

Shield, emi-insep assembly

Material:

Brass body

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A02700
