Mounting Provision:

Flange

Overall Depth:

15.610 inches

Overall Height:

6.970 inches

Overall Width:

10.680 inches

Mounting Hole Quantity:

8

Storage Temperature Range:

-20.0/+70.0 degrees celsius

End Application:

Space track radar an/fps-85

Design Feature:

Punched holes

Product Name:

General purpose 8-slot chassis for pxi

Functional Description:

Combines a 8-slot backplane with high output power supply, integrated cooling, and compact structural design

Style Designator:

Closed ends and sides w/flanged bottom plate

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A05500
