Overall Height:

13.160 inches

Overall Width:

12.460 inches

Overall Thickness:

0.940 inches

End Application:

Docking sonar, starboard rack

Mounting Configuration:

3 holes 0.213 in diameter on bottom flared edge; 2 holes 0.218 in dia. On front flared edge; 2 holes 0.408 in diameter and 2 holes 0.198 in diameter on back flared edge

Panel Material:

Aluminum alloy, qq-a-250/8, alloy 5052, h32

Product Name:

Right mtg panel

Special Features:

Primed with mil-p-24441/20 green primer paint, finished with mil-p-24441/22 white paint; marked "53711-6394020-02 with black epoxy ink, on outside centered about 2 inches from top edge

Surface Treatment:

Chemical film, mil-c-5541

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T122-b
