**Overall Length:**

13.750 inches

**Overall Height:**

3.884 inches

**Overall Thickness:**

0.125 inches

**End Application:**

250 vdc distribution assembly

**Mounting Configuration:**

8 holes, 0.187-0.193 inch in dia., in 2 rows on bottom flange

**Panel Material:**

Aluminum alloy, qq-a-250/8, alloy 5052, h32

**Product Name:**

Connector panel, left

**Special Features:**

J-shaped with bottom flange 1.317 inch high bending forward at 80 degree angle; has 2 rows of 6 holes each for connectors near top of panel and is marked "53711-6392573-1" near right edge just above flange

**Surface Treatment:**

Chemical film, mil-c-5541

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fiig:**

T122-b
