Overall Length:

19.000 inches

Overall Height:

7.000 inches

Overall Width:

1.500 inches

End Application:

Electrical rack

Attachment To Item Supported Method:

Screws

Supporting Object/surface Attachment Method:

8 screw holes

Special Features:

Rack mounted; designed for cots protection inside rack; designed to be mounted on rear eia rails as an exhaust cooling system; ; e comair-rotron maltese fanss rated at 330 cfm each

Material:

Aluminum alloy

Material:

Aluminum alloy

Supplementary Features:

Input: 115v/ 60 hz; connectors: terminal block; all cables are shielded; meets mil-s-90ad grad a barge test reqs (14 hz deck) and mil-std-167 for vibration

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T08100
