Inside Diameter:

0.635 inches third end

Deflection Angle:

120.0 degrees

Conduit Type Accommodated:

Rigid nonmetallic third end

End Application:

Oil-filled cables, transition adapter

Leg Length:

2.000 inches third end

End Type:

Convuluted third end

Item Accommodated Trade Size:

0.750 inches third end

Special Features:

Specific matl is plastic, acetal resin (delrin 100)

Material:

Plastic

Style Designator:

Typical

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A01800
