Width:

0.630 inches

Thickness:

0.015 inches

Length:

29.500 inches

End Type:

W/attachment

Keeper Material:

Steel, corrosion resisting

Keeper Quantity:

1

Fastened Keeper Feature:

Included

End Attachment/fastening Facility:

Keeper

Min. Tensile Strength (psi):

1200 pounds per square inch

Special Features:

Metal locking tie super heavy duty

Material:

Steel comp 316

Material Specification:

Aisi 316 assn standard single material response

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T372-b
