Overall Height:

16.400 inches

Overall Width:

14.000 inches

Overall Thickness:

0.125 inches

End Application:

Ship, ohio class ssn (trident); sof cab assembly data distr

Mounting Configuration:

20 holes, 0.221 in. In dia., 6 along each edge, 3.180 in. Apart on long edges and 2.000 in. Apart on short edges

Panel Material:

Aluminum alloy, qq-a-250/8, alloy 5052, h32

Product Name:

Connector plate assembly

Special Features:

Has 40 punched holes of varying sizes for components (see drawing); has emi gaskets along each outer edge 0.125 in. Thick x 0.500 in.

Wide, made from pola-sheet

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

T122-b
