Overall Length:

7.950 inches

Overall Width:

4.830 inches

Overall Thickness:

0.120 inches

End Application:

Surveillance equipment

Mounting Configuration:

Ms3498-8 5 places, refer to drawing

Panel Material:

Aluminum alloy or steel, stainless

Product Name:

Engine start electric panel

Special Features:

0.531 inch diameter c'bore 0.750 inch diameter drilled holes at various location, refer to drawing for location

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

T122-b
