Overall Length:

4.950 inches

Overall Height:

3.950 inches

Overall Thickness:

0.750 inches

End Application:

Misc parts command x surveillance - lcac

Mounting Configuration:

Ms3498-8 top 2 corners plus one to right of center for a total of 3

Panel Material:

Aluminum alloy or steel, stainless

Product Name:

Wiper el panel

Special Features:

Each corner has an inward radius; there are 4 holes 0.31 in dia, c'bored 0.750 diameter x 12 deg.; marked "wiper" at top center, top left hole is marked "all" above, "fr/e ihu" below, and "front" to left; top right hole is marked "emer" above, "off" to right, "norm" below, bottom left hole marked "off" above, "air" to right, and "wash" to left; bottom right hole marked "deice" to right, "off" below, and "defog" to left

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T122-b
